Kerry Kelly
Environmental Quality Analyst
Permit # 154-12

I am writing you in response to the violation notice dated July 21, 2017 for Violation on June 2, 2017.

The violation was for Euprocess "PTI #154-12, special condition II.2. AQD Consent order 37-2016, Condition 9.A.1.". Our records were misrepresented to you as there was a communication error on our part between the office staff who is handling the record keeping for the department of environmental quality and the workers in the field. We had developed a daily reporting sheet that indicates hours crushing and downtime. As we had determined throw averaging how many buckets an hour we can process that we average about 200 tons and hour. The issue arrived as they did not understand that Crushing was not to include Maintenance, Cleanup, minor repairs or simply time crushers is not running they used it to record time worked and used downtime only to record Lunchtimes. This was making our number inaccurate. We have since discussed this with our Warren Location staff and believe the misunderstanding to be corrected.

Thank you,

RJ Orozco – Vice President

State Crushing, Inc.
