| STAFF: Benjamin Witkopp | COMPLIANCE STATUS: Compliance | SOURCE CLASS: MINOR |
| SUBJECT: Facility inspection | | |
| RESOLVED COMPLAINTS: | | |

Ben Witkopp of the Michigan Department of Environmental Quality - Air Quality Division (MDEQ-AQD) stopped at the facility the morning of Tuesday August 28, 2018. It appeared abandoned and unused though tankage remained.

At the office, I called the "emergency number" that was posted on a sign on the facility fence, explained there was no emergency but that I wished to speak with someone about the facility. I was told the contact for the area was Matt Dunne at 269-488-3079. I called and left a message. I received a call from Steve Iseminger at 269-488-6950. I explained my observations and Steve confirmed that when they voided their air permit some time ago they had disconnected all piping from the storage tanks to the pipeline and the facility hadn't been used.
