Dear Mr. Siegel:

SECOND VIOLATION NOTICE

On September 5, 2019, the Michigan Department of Environment, Great Lakes, and Energy (EGLE), Air Quality Division (AQD) conducted an inspection of Hillside Industries (Company) located at 550 East Ellis Avenue, Belding, Michigan. The purpose of the inspection was to determine the Company's compliance with the requirements of the federal Clean Air Act; and Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended; and the Air Pollution Control Rules.

On September 16, 2019, the AQD sent a Violation Notice (VN) for failing to obtain a Permit to Install (PTI) in violation of Mich Admin Code R 336.1201 (Rule 201). The Company did submit a PTI application in response to the VN but the AQD determined the application was technically incomplete and was returned to the Company. As of the date of this notice, a revised PTI application has not been received by AQD. A copy of this VN has been enclosed for your reference.

Please be advised that failure to submit a timely response, including a Permit to Install application to address the current operations at the facility may result in an escalated enforcement action by the AQD. Please provide the information requested in the VN dated September 16, 2019 by August 14, 2020, which corresponds to 14 days from the date of this letter.

Be further advised that issuance of this VN does not preclude or limit EGLE's ability to initiate any other enforcement action under state or federal law as appropriate.

SECOND VIOLATION NOTICE

Mr. Siegel
