SUBJECT: Follow up on old PTI for wood boiler		
RESOLVED COMPLAINTS:		

On 3/9/1987, PTI #745-86 was issued to the LL Wright high School for a wood fired boiler.

On 10/4/2016 I conducted an onsite visit to this facility. I met with the Superintendent, Mr. Tim Kolesar, and Mr. Lonnie Wendinger, head of maintenance.

Mr. Kolesar stated the wood fired boiler did not function as efficiently as they had hoped. It was taken out of service not long after installation. It is estimated the boiler was removed from the school 10 to 15 years ago.

I followed Mr. Kolesar and Mr. Wendinger to the boiler room. I was able to observe the location where the wood fuel was conveyed into the boiler room. The location where the wood boiler used to be located is now occupied by natural gas boilers.

A note will be sent to Ms. Sue Thelen of the Permit Section requesting to void PTI #745-86 as the equipment has been removed.
