SRN: N1656, Sanilac County

Dear Mr. Albrecht:

VIOLATION NOTICE

On May 7, 2019, the Michigan Department of Environment, Great Lakes and Energy (EGLE), Air Quality Division (AQD), had a meeting with representatives of Albrecht Sand and Gravel located at 3790 West Sanilac Road, Snover, Michigan. The purpose of this meeting was to determine Albrecht Sand and Gravel's compliance with the requirements of the federal Clean Air Act; Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451); the Air Pollution Control Rules.

During the meeting, staff discussed the following:

| Process Description | Rule/Permit Condition Violated | Comments |
|------------------------------------------------------------------------------------------------------------|--------------------------------|-----------------------------------------------------------------------------------------------|
| Unpermitted nonmetallic mineral crushing facility consisting of crushers and associated process equipment. | R 336.1201 | Nonmetallic mineral crushing facility was installed and operated without a permit to install. |

During this meeting, it was noted that Albrecht Sand and Gravel had installed and commenced operation of an unpermitted process at this facility. The AQD staff advised Albrecht Sand and Gravel on May 7, 2019, that this is a violation of Rule 201 of the administrative rules promulgated under Act 451.

A program for compliance may include a completed PTI application for the nonmetallic mineral crushing facility process equipment. An application form is available by request, or at the following website: www.michigan.gov/air (in the shaded box on the upper right-hand side of the page).

Be advised that Rule 201 requires that a permit be obtained prior to installation, construction, operation, reconstruction, relocation, or alteration of any process or process equipment which may be a source of an air contaminant.

Mr. James Albrecht
