Re: Response to DEQ Violation Notice
Magna Sealed Glass Systems (N1784)
Inspection Date 8-9-16
Letter Date 9-23-16

Dear Ms. Lazzaro:

Magna Mirrors Corporation has received and reviewed your Violation Notice, dated September 23, 2016 regarding a site inspection conducted on August 9, 2016. This letter is in response to the violation for FG-BONDING. Comments regarding those portions of your letter directed to the Magna Mirrors facility will be addressed under a separate letter from that facility.

Special Condition VI.2 requires that the company maintain a current listing from the manufacturer of the chemical composition of each material. As you have documented in your letter, there are some MSDS used to comply with this condition that do not appear to represent the most current version. This has gone un-noticed since we have been relying on our suppliers to provide us with the most recent version of each material, as it becomes available.

We are reviewing our process for receiving updated information with our suppliers and requesting all new MSDS information for all materials. Should you have further comments and questions regarding the Engineered Glass facility, I ask that you refer them to Ethan Meyer at 616-786-7603 or by e-mail at ethan.meyer@magna.com

Sincerely,

Bruce Warren
Magna Engineered Glass Systems
