

DEPARTMENT OF ENVIRONMENTAL QUALITY
AIR QUALITY DIVISION
ACTIVITY REPORT: Self Initiated Inspection

N198839048

FACILITY: CARROM COMPANY		SRN / ID: N1988
LOCATION: 218 EAST DOWLAND STREET, LUDINGTON		DISTRICT: Cadillac
CITY: LUDINGTON		COUNTY: MASON
CONTACT: Tim O'Brien , Manager		ACTIVITY DATE: 03/23/2017
STAFF: Rob Dickman	COMPLIANCE STATUS: Compliance	SOURCE CLASS: SM OPT OUT
SUBJECT: Inspection to determine permitting status given removal of equipment from the facility.		
RESOLVED COMPLAINTS:		

Inspected this opt out facility to confirm that certain permitted equipment has been removed from the facility and assist facility representatives in determining permitting status.

Permit Number 700-88A regulates three spray booths and two dip lines previously in operation at the facility. As stated in an inspection report from September 2015, this equipment has not been in operation since 2012. However, at that time, the facility wanted to maintain operational flexibility and keep this permit active. Upon inspection, it was noted that the three booths and two dip lines have been dismantled and removed from the facility. I will advise the facility to request to have this permit voided.

The equipment under 698-88A is in service. This equipment is limited to 4000 hours of operation per year. Emissions from this equipment are limited to 0.10 pounds per 1000 pounds of dry exhaust gas, 12.6 pounds per hour, and 25.2 tons per year. The method of compliance with these limits is through tracking of hours of operation and the amount of air contaminants collected by the cyclone. This permit is still viable for the facility.

With the removal of 700-88A, the facility moves from an opt out source to a minor source under PTI 698-88A. I will advise the facility of this status. I will remind them that they need to continue tracking hours of operation and the amount of air contaminants collected by the cyclone such that they can continue to demonstrate compliance with 698-88A. I will also remove them from the MAERS master list and the obligation of reporting to it.
