SUBJECT: Scheduled inspection of this minor source.		
RESOLVED COMPLAINTS:		

Attempted to inspect this source pursuant to PTI 43-89. This facility is a division of Metalworks, an office furniture manufacturer. The permit is for three wet spray booths with dry fabric filter controls. I first met with John Bartlett, EH&S Manager for Metalworks. Mr. Bartlett escorted me to the facility. Inspection of the facility demonstrated no spray booths or associated equipment or any other equipment of interest to the AQD. I have petitioned Permits Section to void this permit and provided Mr. Bartlett's contact information to them.
