SUBJECT: Inspection to verify compliance with PTI 147-10, PTI 517-89A, and all other applicable state and federal air quality regulations.		
RESOLVED COMPLAINTS:		

On March 16, 2017 I (Sydney Bruestle) conducted an onsite inspection of Thermico Inc. located at 4050 East Gordonville Road, Midland MI. The company operates a paint yard located on Gordonville road, The main office is located at 3405 Centennial Drive in Midland MI. Themico Inc. primarily installs insulation in buildings and on pipes. The owner, Mark Thompson, met me at the paint yard. He gave me a tour of the buildings and showed me three spray booths. Each booth was equipped with dry fabric filter control devices.

PTI 517-89A: The paint booths have not been used since 2015. There as a steady decline in operation leading up to May 15, 2017, which was the last month the booth was operated. There is a 12 month rolling time period VOC limit of 18.8 tpy. In May 2015 the 12 month rolling time period VOC emissions were 1.2 tpy. The attached records show VOC emissions were well below the limit prior to May 2015.

PTI 147-10: This PTI was issued for a corn burner. Thermico no longer has a corn burner onsite, they requested to void PTI 147-10 on March 22, 2017.

At this time it appears Thermico Inc is in compliance with PTI 517-89A and all other applicable state and federal air quality regulations.
