SRN: N2664, Genesee County

Dear Mr. Chad Fackler:

VIOLATION NOTICE

On February 28th, 2019, the Department of Environment, Great Lakes, and Energy (EGLE), Air Quality Division (AQD), received emission limit records from Pioneer Cabinetry, located at 301 W. Rising St., Davison, Michigan. These emission limit records were used to determine Pioneer Cabinetry's compliance with the requirements of the federal Clean Air Act; Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451); the Air Pollution Control Rules; and the conditions of Permit to Install (PTI) number 1004-90H.

Based on the review of the company's data, staff verified the following:

Process Description	Rule/Permit Condition Violated	Comments
EUBOOTH4	PTI No. 1004-90H	The information provided in the volatile organic compounds (VOC) emission records demonstrates that emissions are exceeding the permit limit of 24.1 tons per year (tpy) of VOC and acetone combined.

The records provided demonstrate that actual emissions of VOC and acetone from the EUBOOTH4 process equipment are 27.8 tpy for the reported period of January 2018 through December 2018.

The conditions of PTI number 1004-90H limit the emissions of VOC and acetone combined to 24.1 tpy. The actual emissions from EUBOOTH4 exceed the allowable emission limit of VOCs and acetone and therefore, is considered a violation of PTI No.1004-90H.

Mr. Chad Fackler
