FACILITY: WOODLAND OIL COMPANY		SRN / ID: N2820
LOCATION: 501 E EIGHTH ST, TRAVERSE CITY		DISTRICT: Cadillac
CITY: TRAVERSE CITY		COUNTY: GRAND TRAVERSE
CONTACT:		ACTIVITY DATE: 09/04/2019
STAFF: Caryn Owens	COMPLIANCE STATUS: Compliance	SOURCE CLASS: MINOR
SUBJECT: Scheduled Inspection		
RESOLVED COMPLAINTS:		

On Wednesday, September 4, 2019 Caryn Owens of the Department of Environment, Great Lakes, and Energy (EGLE)-Air Quality Division (AQD) attempted to conduct a scheduled field inspection of Woodland Oil – East 8th Street site (SRN: N2820), located at 501 East 8th Street in Traverse City. More specifically, the site is located on the north side of East 8th Street, on the northeast corner of Wellington and East 8th Street. The field inspection was to determine if there was equipment still located onsite associated with the Permit to Install (PTI) 181-91B.

PTI 181-91B was issued for a soil vapor extraction system to remediate soils contaminated by an underground storage tank leak from 1995. Based on the field inspection and EGLE – Remediation Redevelopment Division (RRD) records, the remediation system has been removed from the Property. The former location of the remediation system now includes an addition to the building and is a walk-in cooler for the convenience store. Therefore, based on this information the remediation system has been removed from the facility and therefore, PTI 181-91A can be voided, and no further action is necessary at this time.
