Michelle Luplow
Michigan Department of Environmental Quality
525 West Allegan St. PO Box 30242
Lansing, MI 48909-7742

Dear Ms. Luplow:

This letter is in response to the violation notice dated September 30, 2015.

During your inspection on July 8, 2015 and after review of records, an apparent violation of the FG-Packaging group 2000-pound monthly VOC emission limit for August and October of 2014 and February and April of 2015 was identified.

During our follow-up investigation we determined that the VOC content of a material was incorrectly entered into the calculation spreadsheet (a VOC content value of 92% was entered while the correct value is 0.92%). The corrected emission information spreadsheet for 2014 and 2015 is attached. The spreadsheet shows that MPS did not exceed the 2000-pound emission.

We apologize for any confusion caused by the transcription error noted above. We are currently reviewing our emission formulas to confirm all factors are current and correct.

If you have any questions, please feel free to contact me.

Sincerely,

A handwritten signature in cursive script that reads "Linda Hall".
