EGLE- Violation Notice

Date of Letter – 10/31/2024

Date of Violation Notice- 10/30/2024

Dear Sir/ Madam,

The Violation notice states, "AQD records indicate a total of three (3) quarterly reports satisfying the requirements of paragraph 10 were received. These reports include records for the periods quarter 3 2023, quarter 4 2024, and quarter 1 2024. A quarterly report for quarter 2 (Q2) 2024 was received on October 25, 2024. The deadline for the Q2 2024 report was within thirty (30) days following the end of Q2 2024, which was July 30, 2024."

There has been a recent turnover in EHS Managers at MINTH, which caused the lapse in reporting to take place. I have recently taken on the role of EHS Manager at MINTH and my first day of employment was on October 7th, 2024. Since my hire, I have reviewed all reporting requirements and submitted the necessary documentation to Nathanael Gentle on October 25th, 2024. Now that there is a full EHS Manager on staff with a background in air permit compliance, this violation will not occur again and should hence be resolved.

Best Regards,

A handwritten signature in blue ink, appearing to read "Brandon Ernst", with a large, sweeping flourish extending to the right.

Brandon Ernst

EHS Manager
