N364074300

FACILITY: CROP PRODUCTION SERVICES, INC.		SRN / ID: N3640
LOCATION: 2122 STOUTENBERG, DECKERVILLE		DISTRICT: Bay City
CITY: DECKERVILLE		COUNTY: SANILAC
CONTACT: Renzie Milarch , Facility Manager		ACTIVITY DATE: 10/28/2024
STAFF: Emily Crimmins	COMPLIANCE STATUS: Compliance	SOURCE CLASS: MINOR
SUBJECT: Self Initiated Inspection		
RESOLVED COMPLAINTS:		

Crop Production Services-Deckerville (N3640)**2122 Stoutenberg Rd, Deckerville MI**

I (EC) performed an unannounced inspection at this facility on 10/28/24. I entered the facility office and greeted the admin assistant. She advised me to call Renzie Milarch (Sandusky & Deckerville Facility Manager). I called Renzie and asked about the absent Anhydrous Ammonia stationary tanks and nursery tanks described in Permit Nos 6-14 and 159-12. Renzie confirmed that the tanks were no longer in use and removed from the site. He also stated the tanks were sold to a propane company.

At the end of the phone call, I told Renzie that I would email him any follow up questions and the process to close the permits for the (renamed to Nutrien Ag Solutions) Crop Production Services- Deckerville site.
