Dear Eric Grinstern:

VIOLATION NOTICE RESPONSE

On August 20, 2024 you had conducted an inspection of Becker Metal Works, Inc (BMW). and found two violations. The first being the installation and operation of the flash fire dewax oven without obtaining a permit to install. In order to correct this violation, BMW has sent out a Permit to Install Application on 9/13/2024. And to remain compliant, BMW will ensure that any new equipment being installed will have a PTI completed and approved, before installation of said equipment.

The second violation was that BMW has failed to submit semiannual compliance reports from July 1, 2021 to the present. Moving forward, BMW will begin to submit their semiannual compliance reports to EGLE, AQD, Warren District and will ensure that the reports are submitted to the USEPA via the CEDRI.

If you have any concerns with the actions taken, please contact me at the number listed below.

Sincerely,
Nick Pleva
