RE: SRN N5145, MACOMB COUNTY

SUBJECT: VIOLATION NOTICE

Dear Mr. Lim,

We would like to address the issues related to the notice of violation.

Process Description, burn-off ovens:

New stacks for the burn-off ovens have been ordered and are expected to arrive within a week; we should have them up in approximately two weeks. With regard to record keeping of the burn-off ovens, the observer/reader will maintain hand-written records of the burn-off oven operations. This will include recording the number of carts processed per oven, per month, per year. Records of visible emission readings will be taken as well as operating temperature of each oven will be taken once per batch cycle.

Process Description, E-Coat line with drying oven:

New stacks have been ordered for the bake oven, and we expect them to be delivered to our facility in four to five weeks. New stacks will be put up immediately upon receipt.

The entire process should be completed within 30 – 45 days.

Very Truly Yours,
Industrial Metal Coating

Philip Oliver
President
