Attn: Amanda Chapel

SRN N5599 Cass County

Violation date November 14 2018

Cause: Robot overspray on Monitor unreadable pressure reading and not recorded

The following actions have been implemented to correct the Violation Notice regarding the differential pressure reading monitoring process effective 12-21-18.

A new Monitor was installed away from the robotic arm so it's not being over sprayed. As suggested by Amanda the monitor was installed on the inside wall away from the robot spray. Daily reading will be recorded using the daily Hours of Operation Form to prevent any recurrences of non-reporting.

Regards
