ACTIVITY REPORT: Off-site Inspection

N577269087

<b>FACILITY:</b> MATHY CONSTRUCTION CO PLANT 24		<b>SRN / ID:</b> N5772
<b>LOCATION:</b> Portable Asphalt Plant 24 #42-96, IRONWOOD		<b>DISTRICT:</b> Marquette
<b>CITY:</b> IRONWOOD		<b>COUNTY:</b> GOGEBIC
<b>CONTACT:</b> Patrick Paulino ,		<b>ACTIVITY DATE:</b> 08/04/2023
<b>STAFF:</b> Joe Scanlan	<b>COMPLIANCE STATUS:</b> Compliance	<b>SOURCE CLASS:</b> MINOR
<b>SUBJECT:</b> Off-site inspection to determine compliance with PTI No. 42-96		
<b>RESOLVED COMPLAINTS:</b>		

Plant 24 has not operated in MI since 2010. The facility did conduct successful performance testing for particulate matter (PM) and Formaldehyde on May 7 & 10, 1995, to satisfy Special Condition 31 of PTI No. 42-96. See email correspondence below.

Hi Joe,

I hope all is going well. Regarding these two units, I don't know the last time they were in MI. They have not gone since I have been with the company (10 years). They are both still operational but neither is planning on going to MI this year. At this time, I believe we will want to keep both PTIs. Let me know if you need anything else. Thanks and have a great weekend.

Patrick,

Hope all is going well this construction season. A couple of questions regarding two of your portable units:

- N5772 – PTI No. 42-96; When is the last time this unit operated in MI? Is it still operational? If so, plans to move to move it to MI this year? If not, should we void the PTI?
- N5880 – PTI No. 99-96; When is the last time this unit operated in MI? Is it still operational? If so, plans to move to move it to MI this year? If not, should we void the PTI?
