

**DEPARTMENT OF ENVIRONMENTAL QUALITY
AIR QUALITY DIVISION
ACTIVITY REPORT: Scheduled Inspection**

N603724457

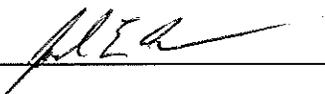

FACILITY: MICHIGAN ENVIRONS INC		SRN / ID: N6037
LOCATION: 6111 W ELMWOOD RD, MENOMINEE		DISTRICT: Upper Peninsula
CITY: MENOMINEE		COUNTY: MENOMINEE
CONTACT: SCOT GERARDEN, SITE MANAGER		ACTIVITY DATE: 03/04/2014
STAFF: Joel Asher	COMPLIANCE STATUS: Compliance	SOURCE CLASS: MAJOR
SUBJECT: Landfill Inspection		
RESOLVED COMPLAINTS:		

On 3/4/2014 I conducted an inspection of this landfill. My contact was the landfill manager, Mr. Scot Gerarden.

Operations at the landfill have not changed since the last compliance inspection. The facility continues to accept solid waste. Their capacity is small enough that their emissions are well below the 50 Mg of NMOC which exempts them from many of the requirements of their ROP #MI-ROP-N6037-2011. The facility is fenced and the access road is paved minimizing fugitive dust issues. No complaints have been received regarding the facility.

The landfill is licensed to accept asbestos containing materials (ACM). Mr. Gerardin stated they continue to accept ACM, however, they are seeing less and less each year. The facility requires a 24 hour notice before the ACM can enter the property. All ACM waste has a profile sheet and its location is marked in the cell. These coordinates are plotted on a map of the entire cell. A copy of the profile sheet and the ACM location map were observed.

No violations of the facility's ROP or the Air Pollution Control Rules were observed during this inspection.
