<b>RESOLVED COMPLAINTS:</b>		

On 27 Jan 22, David Bowman, AQD Inspector, conducted an onsite inspection of Exempt Site SRN N6106 Riverside Loudbert. It is located south of Atlanta on CO 487 and Landfill Rd. Turn East on Landfill rd and approx. 0.25 mile turn south to the site just before the entrance to MOA. It can be seen from landfill rd.

I arrived and was not able to discern any odors nor could I detect any emissions from the stack, even though the engine was in operation. The site is properly marked with safety signage and is well maintained.

The engine at the site is labeled as unit 906 and is a CAT G3516 S/N EK00684

Records indicate daily inspections with monthly PM and sampling. Last coolant change was listed 11-10-2021 at frame hour 119109.
