SUBJECT: Scheduled inspection- minor source		
RESOLVED COMPLAINTS:		

On August 15, 2017, I inspected the Sorgett CPF. This facility had a permit, PI 104-97, but the permit was voided because the operator said there was nothing on site that required a permit.

The facility is gone. I found a trailer, a well, some hoses, and a sprinkler system operating at the site. I found a slab where a compressor building might have been.

According to Andrea Sullivan of OGMD there was a brine spill here. The equipment on site is related to remediation.
