 AIR QUALITY DIVISION
 ACTIVITY REPORT: Scheduled Inspection

N634255142

FACILITY: TRI CITY AGGREGATES		SRN / ID: N6342
LOCATION: 721 RAY RD, OXFORD		DISTRICT: Warren
CITY: OXFORD		COUNTRY: OAKLAND
CONTACT:		ACTIVITY DATE: 08/28/2020
STAFF: Joe Forth	COMPLIANCE STATUS: Compliance	SOURCE CLASS: Minor
SUBJECT: On-site Inspection		
RESOLVED COMPLAINTS:		

On August 28, 2020, AQD staff, Joseph Forth, conducted a scheduled inspection of a portable non-metallic mineral crushing plant owned and operated by Tri City Aggregates (N6342) located at 721 Ray Road in Oxford, Michigan. In December 2019, AQD received information that the company would be operating a crusher at the address. Before visiting the location, I contacted Tri City Aggregates to have someone meet me at the location. I was told that Tri City Aggregates is not currently operating at the address. I went to the location to confirm that there was no machinery operating. Upon arriving at the location, no machinery was visible. In MACES, the facility is considered permanently closed. Until the AQD receives future information otherwise, it will continue to be considered as such.
