	SOURCE CLASS: MINOR
SUBJECT: FY 2016 scheduled inspection of Du Pont Herbert's Automotive Systems America, Inc. (N6343) - permanently shut down	
RESOLVED COMPLAINTS:	

N6343 - SAR - 2015 11 12

Du Pont Herbert's Automotive Systems America, Inc. (N6343)
SH North America, LLC
2800 Centerpoint Parkway
Pontiac, Michigan 48341-3160

SRN reassign (2015): Du Pont Herbert's Automotive Systems America, Inc. (N6343) – demolished paint manufacturing facility → SH North America, LLC (N6343), a subsidiary of SH Global of Korea – only office space

To be voided: PTI No. 348-97 dated August 22, 1997, for paint production and spray testing

PTI void: PTI No. 348-97A (04/09/2000)

On November 12, 2015, I conducted a level-2 **scheduled** and self-initiated inspection of Du Pont Herbert's Automotive Systems America, Inc. ("Du Pont") and SH North America, LLC, ("SH NA"), a subsidiary of SH Global of Korea, located at 30529 Andersen Court, Wixom, Michigan 48393-2877. The inspections were conducted to determine compliance with the Federal Clean Air Act; Article II, Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451; and Michigan Department of Environmental Quality, Air Quality Division (MDEQ-AQD) administrative rules.

During the inspection, Ms. Eun Lee (Phone: 810-922-4163; Cell: NA; Fax: NA; E-mail: EunLee@ShamT.com), Office Manager, assisted me.

SH AM is in the business of supplying molded automotive parts to auto manufacturers and Tier 1, 2 & 3 suppliers:

1. Molded trim components
2. Instrument panel system
3. Compression molded trim
4. Door panel systems
5. Center console systems
6. Complete interior systems, etc.

All manufacturing takes place in Mexico (mostly) and Canada for North American markets (NAFTA). Of course, manufacturing takes place in Korea for local markets. Pontiac facility provides engineering, sales, service, etc. to the customers. The molded parts are supplied to

GM (mostly), VM, Honda, etc. SH AM is trying to sell the building since 90 percent of the building empty. Only about twenty engineers are working at Pontiac.

No manufacturing at this location anymore. No paint spray booth. No parts cleaner.

Du Pont's paint manufacturing facility is demolished. Hence, PTI No. 348-97 dated August 22, 1997, for paint production and spray testing, must be voided.

Conclusion

Du Pont's paint manufacturing facility is demolished and is replaced by an office building. PTI No. 348-97 must be voided.
