N647362856

FACILITY: Lambda Energy Resources, LLC - Albert 25		SRN / ID: N6473
LOCATION: County Rd 612, LOUD TWP		DISTRICT: Gaylord
CITY: LOUD TWP		COUNTY: MONTMORENCY
CONTACT:		ACTIVITY DATE: 05/12/2022
STAFF: David Bowman	COMPLIANCE STATUS: Compliance	SOURCE CLASS: MINOR
SUBJECT: unscheduled inspection.		
RESOLVED COMPLAINTS:		

I, David Bowman EGLE AQD, conducted an unscheduled inspection of N6473 Albert 25. Traveling East on CO RD 612 from Lewiston approx 1600 feet East of Halberg Rd on the curve the drive is to the south. The gate has signage stating must remain closed at all times but it was open upon my arrival. The site has one compressor shed with compressor and glycol dehy and two 500 bbl tanks in secondary storage. One was labeled water and the other had no label.

The motor was operating and there was no detectable odors and no visible emissions from the stacks. The daily check sheets are being filled out and the parameters appeared to be consistent.

The motor data plate is for a CAT 5516 S/N 4LK03560 with a label of GCS 1183 on the skid. The skid label is under expanded metal and was hard to read with the existing lighting. Engine hours display 76653.9 Engine oil PSI 60 and temp 200F.
