ACTIVITY REPORT: On-site Inspection

N659972908

FACILITY: Florence Cement Company, Inc.		SRN / ID: N6599
LOCATION: 51515 Corridor, SHELBY TWP		DISTRICT: Warren
CITY: SHELBY TWP		COUNTY: MACOMB
CONTACT: Steve Gregor , Vice-President		ACTIVITY DATE: 08/01/2024
STAFF: Marie Reid	COMPLIANCE STATUS: Compliance	SOURCE CLASS: MINOR
SUBJECT: FY24 Inspection - Record review only.		
RESOLVED COMPLAINTS:		

Florence Cement's concrete batch plant #711 (Florence) (SRN N6599) operates under exemption R 289(2)(d). I contacted Steve Gregor, Vice-President, and he stated that the facility has not operated during the FY24 construction season, so I was unable to conduct an on-site inspection, however, I reviewed records.

Steve provided me with records I requested via email from January 1, 2023 – December 31, 2023. These records are available on the AQD shared drive at the following address: S:\Air Quality Division\STAFF\Marie Reid\Inspection Documents\FY24\N6599 - Florence Cement.

According to the provided records, Plant #711 produced 27,119 cubic yards of concrete during the 2023 construction season. This is below the 200,000 cubic yard processing limit established in the R 289(2)(d) exemption. In 2023, Florence was batching concrete for Capital Region International Airport and Duncan Aviation. The plant sent relocation notices on May 5, 2023, and August 21, 2023. The relocation notices contained all the information required in the R 289(2)(d) exemption. Steve provided records of all applications of dust suppressants and roadway and plant yard sweepings, and all stockpile watering as required in the R 289(2)(d) exemption.

Based on the provided records, Florence Cement Plant #711 is in compliance with the Rule 289(2)(d) exemption for concrete batch plants.
