SUBJECT: Portable gravel crusher		
RESOLVED COMPLAINTS:		

On 5/28/2014 Mr. Joe Scanlan and I conducted an unannounced inspection of this portable gravel crusher. Our contact was the plant foreman, Mr. John Sicotte.

This crusher was operating at the M-95 pit located just north of Iron Mountain. Mr. Sicotte stated they started crushing at this location about 3 weeks ago and will remain here for another 3 weeks. So far they have crushed 8500 tons of 23A, 3100 tons of recycle asphalt, and 15,000 tons of 23. They plan to crush 20,000 tons of wash material and 5,000 tons of 2"-.

A water tank was observed onsite and spray bars were utilized to control fugitive emissions. Water is obtained from the holding pond in the pit.

Mr. Sicotte stated he has not received any new equipment for his crushing spread this year. A walk through of the spread was taken and the following equipment was observed to be in operation:

- jaw crusher PC8
- conveyor RS20
- screen deck SP18
- conveyor RS21
- conveyor CV71
- cone crusher CC13
- conveyor RS26
- conveyor CV62
- conveyor RS14
- radial stacker RS27

All equipment is permitted under PTI 113-99 or another of A Lindberg & Son's PTIs.

No violations of the Air Pollution Control Rules or PTI #113-99 were observed during this inspection
