ACTIVITY REPORT: Scheduled Inspection

N684738482

FACILITY: EDISON SAULT ELECTRIC CO		SRN / ID: N6847
LOCATION: STATE ROAD M-185 MACKINAC ISLAND, MACKINAC IS		DISTRICT: Upper Peninsula
CITY: MACKINAC IS		COUNTY: MACKINAC
CONTACT: PHIL SCHMITIGAL, DIRECTOR OF GENERATION		ACTIVITY DATE: 02/01/2017
STAFF: Ed Lancaster	COMPLIANCE STATUS: Compliance	SOURCE CLASS:
SUBJECT: Conducted scheduled inspection via telephone.		
RESOLVED COMPLAINTS:		

On February 1, 2017, I spoke to Mr. Schmitigal regarding conducting an inspection of the six diesel engine and generator sets that were permitted (PTI No. 235-00) to operate on Mackinac Island. The permit was issued to Edison Sault Electric Company. Mr. Schmitigal stated Cloverland Electric Cooperative purchased Edison Sault several years ago and the units are no longer located on the Island.

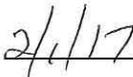

In early 2000 the underwater electric cable to Mackinac Island needed to be repaired. Edison Sault leased six diesel engine/generator sets from Modular Power Company, (SRN N6604), located in Coldwater, Michigan. Modular Power had permitted ten engine/generator sets under PTI No. 184-99A. In order to operate the six units needed, Edison Sault applied for and was issued PTI No. 235-00 for the temporary re-location of the units.

As the units are no longer located in the UP District, I requested Mr. Schmitigal submit a request to the AQD to void PTI No. 235-00.
