Dear Mr. Arker:

VIOLATION NOTICE

On August 16, 2018, the Department of Environmental Quality (DEQ), Air Quality Division (AQD), conducted an inspection of A & C Electric located at 41225 Irwin Road, Harrison Township, Michigan. The purpose of this inspection was to determine A & C Electric's compliance with the requirements of the federal Clean Air Act; Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451); the Air Pollution Control Rules; and the conditions of Permit to Install (PTI) number 344-00.

During the inspection, staff observed the following:

Process Description	Rule/Permit Condition Violated	Comments
Electrical wire coating process consisting of an approximately 500-gallon varnish tank and an electric bake oven.	Rule 201	A & C Electric operated an electrical wire coating process without first obtaining a permit to install.

During this inspection, it was noted that A & C Electric had installed and commenced operation of unpermitted equipment at this facility. The AQD staff advised A & C Electric on July 18, 2017, that this is a violation of Rule 201 of the administrative rules promulgated under Act 451.

A program for compliance may include a completed PTI application for the electrical wire coating process equipment. An application form is available by request, or at the following website: www.michigan.gov/deqair (in the shaded box on the upper right-hand side of the page).

Be advised that Rule 201 requires that a permit be obtained prior to installation, construction, operation, reconstruction, relocation, or alteration of any process or process equipment which may be a source of an air contaminant.
