STAFF: Becky Radulski	COMPLIANCE STATUS: Compliance	SOURCE CLASS: MINOR
SUBJECT: site inspection		
RESOLVED COMPLAINTS:		

Performed self initiated site inspection at N6954 Merit - Forest Twp in Cheboygan County on October 30, 2014. This source was listed on the minor list without having an EPA class listed. The source is located on the east side of Black River Road just south of Shan-gri-la Road in Section 22 of T33N R1E. Present for the inspection were Becky Radulski and Gloria Torello, AQD.

PTI 66-01 was voided on 8/17/2005. The PTI was for (from Permit Cards Equipment Detail): *The source is a glycol dehydrator located at a production well drawing natural gas and oil from the Niagaran formation. The downcomer is used as a condenser to control the emissions. This permit covers emission unit EUDEHY.*

The glycol dehydrator equipment is not operating and is no longer at this source. There is no CPF at this location. There is a pump-jack which was not operating and appeared to be not in operating condition at this location.

MACES has been updated with the following: VOID added to the source description; 'minor' added to the EPA class; operating status changed to permanently closed.

If possible, this source can be removed from the minor source list.
