The purpose of this inspection was to determine Lakeland Mills, Inc.'s compliance with the requirements of the federal Clean Air Act; Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451); and the Air Pollution Control Rules.

During the inspection, staff observed the following:

Process Description	Rule/Permit Condition Violated	Comments
Two Coating Booths	Rule 201	Operating without an air use permit to install.
One Kiln	Rule 201	Operating without an air use permit to install

During this inspection, it was noted that Lakeland Mills, Inc. had commenced operation of unpermitted equipment at this facility. The AQD staff advised Lakeland Mills, Inc. on May 7, 2019, that this is a violation of Rule 201 of the administrative rules promulgated under Act 451.

A program for compliance may include a completed PTI application for the two coating booths and one kiln process equipment. An application form is available by request, or at the following website: www.michigan.gov/air (in the shaded box on the upper right-hand side of the page).

Be advised that Rule 201 requires that a permit be obtained prior to installation, construction, operation, reconstruction, relocation, or alteration of any process or process equipment which may be a source of an air contaminant.
