Dear Mr. Jaracz:

VIOLATION NOTICE

On April 2, 2018, the Department of Environmental Quality (DEQ), Air Quality Division (AQD), received a Rule 912 excess emissions report from Lacks Enterprises, Inc. Kraft Plater located at 5675 Kraft Avenue, Cascade Township, Michigan. The report was reviewed with the purpose to determine Lacks Enterprises, Inc. Kraft Plater's compliance with the requirements of the federal Clean Air Act; Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451); the Air Pollution Control Rules; and the conditions of Renewable Operating Permit (ROP) number MI-ROP-N7374-2015a.

During the review, staff observed the following:

Process Description	Rule/Permit Condition Violated	Comments
EUCHROMEETCH	ROP No. MI-ROP-N7374-2015a, EUCHROMEETCH, Special Condition I.2	Exceedance of hourly emission limit for total chromium

The Rule 912 excess emissions report explained that the failure of the blast gate which led to increased air flow in the system was the likely cause of the emission limit exceedance, and a corrective action plan for permanent air flow reduction is in place. As such, no further response is necessary to this Violation Notice, unless the proposed corrective action plan is not completed as detailed.

If Lacks Enterprises, Inc. Kraft Plater believes the above observations or statements are inaccurate or do not constitute violations of the applicable legal requirements cited, please provide appropriate factual information to explain your position.
