| FACILITY: RIVERSIDE - CUSTER 7 CPF | | SRN / ID: N7592 |
| LOCATION: 3996 DB Trail, CUSTER TWP | | DISTRICT: Cadillac |
| CITY: CUSTER TWP | | COUNTY: ANTRIM |
| CONTACT: | | ACTIVITY DATE: 10/26/2017 |
| STAFF: Rob Dickman | COMPLIANCE STATUS: Compliance | SOURCE CLASS: MINOR |
| SUBJECT: Inspection of this opt out source to obtain an accurate inventory of equipment on site. | | |
| RESOLVED COMPLAINTS: | | |

Performed an on site inspection of this source. The purpose of this inspection was to get an accurate inventory of the permitted equipment on site.

A list of equipment on site includes:

- One V-12 Caterpillar Engine, Model 3512LE, uncontrolled, Skid NGCS 192
- One V-16 Caterpillar Engine, Model 3516LE, uncontrolled, Skid NGCS 191
- One 400 bbl AST
- One electric booster compressor, not in operation at the time of inspection
- One glycol dehy

A review of the permit lists an additional 3516LE and a 3408TA. These engines were never installed at the facility. Riverside, while not required to, was asked to amend their permitting to reflect the equipment on site. No further action is recommended.
