An inspection was conducted on June 27, 2024, by Air Quality staff Chris Robinson (CR) at Jim Rasch Farms CR met with Russ Rasch who showed him the Fuel Ethanol production system. Observations appear to indicate that the system has not been operated in some time and Russ confirmed that it last operated in approximately 2014. Russ also noted that the township will not allow them to operate but they have been working on an ordinance that would allow it. Russ will notify AQD if and when operations resume. No further evaluation is necessary at this time.
