RE: SRN: N8248

Dear Ms. Ransom:

We are in receipt of your October 28th correspondence regarding the violations imposed as a result of our Renewable Operating Permit (ROP) application not being received by the October 27th deadline.

Please be advised that this office did email the completed ROP Application, and a marked-up copy of our current application as required, to Mr. Dickman on September 15th. However, there was an error in the email address that the documents were sent to. On October 28th, when this office received notice that Mr. Dickman did not receive the September 15th email, it was immediately re-sent to the correct address. A signed, completed application was also mailed to Mr. Dickman on October 28th.

We apologize for this over-sight and trust that, under the circumstances, reconsideration will be given to the imposition of violations.

Sincerely,

Lyle VanWormer
Chairman
