Let this letter serve as an update to the written response to violation issued on November 8, 2018 stemming from an inspection done on April 5, 2018.

I regret to inform you that the opacity testing scheduled for November 27, 2018 has been canceled due to inclement weather. West Michigan and the Muskegon area is under a winter storm watch, with 6 inches of snow on the ground and more to come. It would be impossible to complete this test under these conditions. Unfortunately, as winter sets in, trying to reschedule at a later date this year is tentative at best. We have decided to halt grinding operations till spring 2019 and reschedule the Method 9 opacity test prior to resuming operations. We appreciate your understanding and will complete the testing and submit the report as soon as possible in the spring 2019.

Sincerely,

A handwritten signature in black ink, appearing to read "S. McDowell".
