SUBJECT: A 123 Systems is out of business at this location		
RESOLVED COMPLAINTS:		

AQD On-site Inspection, October 18, 2023 for FY2024.

A123 Systems (P:0024) is no longer doing business at 38100 Ecorse, Romulus.

The property is currently owned by Ford Motor Company. From a conversation with Scott Horst, Facilities and Lab Operations at the site, it appears that in late 2020, A123 Systems may have gone bankrupt.

When Ford purchased the building later in 2020, it was completely empty.

At the time of this inspection, Ford is in the process of constructing office space. The plan is to construct and commission two (2) Electric Vehicle (EV) Battery Pilot Lines which will be utilized for research and development purposes only.

The facility will be known as "Ford Ion Park".

This facility is in compliance.
