List of Partial Compliance Evaluations :

Activity Date	Activity Type	Compliance Status	Comments
05/09/2016	MAERS	Compliance	The 2015 MAERS was reviewed, and the results were consistent with the records received during the inspection. The report was received late, however, the facility was actively working with AQD to resolve this issue and was able to get them in with the extended deadline. One update was made changing the formaldehyde emissions data from MAERS emission factor to mass balance, since the numbers inputted were actually mass balance calculations.
04/27/2016	Scheduled Inspection	Compliance	The purpose of this inspection was to determine compliance with Permit to Install No. 136-12 and all other applicable Air Quality Rules and Regulations.
