ENFORCEMENT NOTICE

In the matter of:

LG Chem Michigan Inc.
1 LG Way
Holland, Michigan 49423

SRN: P0087; Allegan County

ATTENTION: Mr. Ralph Severns

This letter is to advise you of the commencement of escalated enforcement action against LG Chem Michigan Inc. This letter follows the September 17, 2018 Violation Notice issued by the Michigan Department of Environmental Quality (MDEQ), Air Quality Division (AQD) which detailed violations of National Emission Standards for Hazardous Air Pollutants, Title 40 of the Code of Federal Regulations (CFR), Part 63, Subpart VVVVVV; Part 55, Air Pollution Control, of the Natural Resources and Environmental Protection Act, 1994, PA 451, as amended (NREPA), MCL 324.5501 *et seq.*; the administrative rules promulgated thereunder, specifically Mich Admin Code, R 336.1201 Mich Admin Code, R 336.1210, and Permit to Install (PTI) No. 64-10A.

The cited violations against the Company are federally enforceable and are considered a High Priority Violation (HPV) by the United States Environmental Protection Agency (EPA). The HPV designation means that the EPA places a priority on enforcing the regulations governing this violation and on formally resolving alleged violations of this type. The AQD is required to report all HPVs to the EPA, pursuant to the state's grant commitments with the EPA and the state's delegated enforcement authority of the federal Clean Air Act.

The AQD is providing the Company with an opportunity to formally resolve these violations through the entry of a legally enforceable agreement that will include a compliance program and payment of an appropriate monetary penalty pursuant to Section 5528 of Part 55 of NREPA, MCL 324.5528.

Be advised that failure to respond to this Enforcement Notice in a timely manner and adequately resolve or address the cited violations may result in further enforcement proceedings, including but not limited to, referral of the matter to the Michigan Department of Attorney General (MDAG) for commencement of civil litigation.
