

DEPARTMENT OF ENVIRONMENTAL QUALITY
AIR QUALITY DIVISION
ACTIVITY REPORT: Off-site Inspection

P009363902

FACILITY: Smiths Group Services Corp		SRN / ID: P0093
LOCATION: 4247 Eastern Ave, WYOMING		DISTRICT: Grand Rapids
CITY: WYOMING		COUNTY: KENT
CONTACT: Chris Miron , Consultant		ACTIVITY DATE: 08/03/2022
STAFF: April Lazzaro	COMPLIANCE STATUS: Compliance	SOURCE CLASS: Minor
SUBJECT: Scheduled inspection		
RESOLVED COMPLAINTS:		

Staff, April Lazzaro conducted a file review, and after several points of contacts were reached, learned that Barr is currently the consultant representing Smiths Group Services Corporation.

FACILITY DESCRIPTION

Smiths Group Services Corporation owns two soil vapor extraction systems that have operated on property currently rented by other companies, as such site access must be coordinated with multiple parties.

Both systems are permitted by the AQD via the General Permit to Install (PTI) for Soil Vapor Extraction (SVE) and both are currently inactive.

SRN P0093 is located at 4247 Eastern Ave SE and is covered by PTI No. 62-10. While currently inactive, according to the facility consultant, this system may be put into service again in the future. However, they are currently evaluating whether or not the system would qualify for a permit exemption. This evaluation is not expected to be concluded until late 2022. Accordingly, the permit will remain active until a request is received to void the permit.

SRN P0098 is located at 4047 Eastern Ave SE and is covered by PTI No. 63-10. According to the consultant, this SVE system will not be operated in the future and a request to void the permit will be submitted to the AQD in the next few weeks.

CONCLUSION

Due to the fact that the permitted equipment is not active, Smiths Group Services Corporation is considered in compliance at this time. As additional information becomes available, this will be reevaluated as necessary.
