FACILITY: URV USA, LLC		SRN / ID: P0178
LOCATION: 330 HAMMAN ST, EATON RAPIDS		DISTRICT: Lansing
CITY: EATON RAPIDS		COUNTY: EATON
CONTACT: Blair Miller,		ACTIVITY DATE: 11/04/2015
STAFF: Michelle Luplow	COMPLIANCE STATUS: Compliance	SOURCE CLASS: SM OPT OUT
SUBJECT: Scheduled, unannounced compliance inspection to determine if URV ever had their facility built after being issued an opt-out permit that has since expired.		
RESOLVED COMPLAINTS:		

I arrived at 330 Hamman Dr, Eaton Rapids around 12:20 p.m. on November 4, 2015, to verify whether or not URV had built their facility after being issued an opt-out permit in 2011. The opt-out permit had expired on 2/11/2014 and was voided on 5/8/2014.

When I arrived at the site I noted that there was a sign out front indicating that the building at this location was for the company GSE Machining and Fabrication: Industrial Automation Systems. AQD considers URV permanently closed and will mark it as such in MACES once FY16 has ended, for inspection log purposes.

GSE will be inspected at a later time as a self-initiated inspection to determine whether all processes located at this site are exempt from an air quality permit to install.
