Mr. Jeff Adler, President
Tuscola Energy, Inc
7998 M-25
Akron, Michigan 48701

SRN: P0202, Tuscola County

Dear Mr. Adler:

VIOLATION NOTICE

On March 4, 2016, the Michigan Department of Environmental Quality (MDEQ) visited your Walat Farms A-6-27 and A-11-22 crude oil production facility located in Wisner Township, Michigan. The purpose of this inspection was to determine your facility's compliance with the requirements of the federal Clean Air Act and Part 55, Air Pollution Control, and Office of Oil Gas and Minerals (OOGM) Part 615, Supervisor of Wells, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (Act 451). The facility is also covered by air use permit 9-11 issued by the MDEQ - Air Quality Division (AQD).

During the visit, the following violations were noted:

Process Description	Rule/Permit Condition Violated	Comments
Walat A-6-27	AQD PTI 9-11 IV 1 (b)	The Profire PF2100F shutdown system was "stopped". The Walat A-6-27 was pumping at the time. The murphy switch settings on the well had been manipulated far higher since system testing was observed on February 9, 2016. Pumping pressure was 24 psi while the murphy was set at 54 basically making the system useless even if it was turned on. The murphy switch on the A-11-22 had been similarly manipulated but the well was not pumping at the time.
Walat A-6-27	OOGM R334.1123	The OOGM rule mirrors the AQD permit condition.

Please initiate actions necessary to correct the cited violation and submit a written response to this Violation Notice by March 30, 2016. The written response should include: the dates the violations occurred; an explanation of the causes and duration of the violations; whether the violations are ongoing; a summary of the actions that have been taken and are proposed to be taken to correct the violations and the dates by which these actions will take place; and what steps are being taken to prevent a reoccurrence.

If Tuscola Energy Inc. believes the above observations or statements are inaccurate or do not constitute violations of the applicable legal requirements cited, please provide appropriate factual information to explain your position.

It should be noted the facility is subject to the conditions of a Consent Order (AQD 37-2015, OOGM 2997) which was effective as of December 17, 2015. The violations presented above may result in stipulated penalties for the facility.

Thank you for your attention to resolving the violations cited above. If you have any questions regarding the violations, or the actions necessary to bring this facility into compliance, please contact me at the telephone number below, or via correspondence addressed to Air Quality Division, 401 Ketchum Street, Suite B, Bay City, Michigan 48708.

Sincerely,

Ben Witkopp
Environmental Engineer
Air Quality Division
