SUBJECT: Minor source inspection		
RESOLVED COMPLAINTS:		

AQD issued a permit to MC Sandblasting and Painting on this site. As I remembered, this was a permit we had issued long ago to allow repainting of the Rogers City water tower. I marked the facility as "permanently closed" in our database, since the maintenance job was finished long ago and the MC Sandblasting and Painting permit had been voided.

On March 30, 2017, I went to this address to confirm that the permit had been for what I thought it was. It was indeed the Rogers City water tower. We were correct in voiding the permit and marking the facility as permanently closed.
