Attention: Stephen Weis, Senior Environmental Engineer
3058 West Grand Blvd., Suite #2-300
Detroit, Michigan 48202

RE: SRN: P0380 – WAYNE COUNTY VIOLATION NOTICE

Mr. Weis,

This letter is to inform you that Sakthi Automotive in haste installed a Caterpillar Generator to support back up power to the 201 Waterman (Machine side plant) without first obtaining a MDEQ permit for this size generator.

As noted, and as per Michigan Administrative Rules 201(1), R-336.1201(1), Sakthi wishes to be in complete compliance by first taking the following actions:

1. Date violation occurred: January 24, 2019
2. Causes of violation are: After installing the Caterpillar Generator, Sakthi did not obtain a MDEQ permit in advance as required and as a result, Sakthi is now requesting a permit from MDEQ, to become compliance.

Summary of actions Sakthi propose to take to correct violations are as follows:

3. On 03-12-19, Sakthi respectfully request to process and obtain the correct permit for **Caterpillar, Model #3512B**, which is currently installed and located at 201, Waterman (north side of plant).
4. Once permit is obtained and/or granted, Sakthi aspire to have this permit added to our current/existing Permit **#PTI-92-16** as an addendum. If there are any annual fees required to maintain this permit, Sakthi is in full agreement to maintain permits to prevent any reoccurrences.

Please forward to Sakthi, the permit forms to be completed for this required action and the fee amount required.

Respectfully Submitted by,

Deepak Bhalla, Director of Facilities/Purchasing: 

CC: Jenine Camilleri Enforcement Unit Supervisor, DEQ
