

DEPARTMENT OF ENVIRONMENTAL QUALITY
 AIR QUALITY DIVISION
 ACTIVITY REPORT: Scheduled Inspection

P055450456

FACILITY: TENMILE CREEK EXCAVATING		SRN / ID: P0554
LOCATION: 17040 TECUMSEH ROAD, DUNDEE		DISTRICT: Jackson
CITY: DUNDEE		COUNTY: MONROE
CONTACT:		ACTIVITY DATE: 06/28/2019
STAFF: Joe Forth	COMPLIANCE STATUS: Compliance	SOURCE CLASS: MINOR
SUBJECT: Scheduled On-site Inspection		
RESOLVED COMPLAINTS:		

On June 28, 2019, AQD staff Joe Forth conducted a scheduled inspection of Ten Mile Creek Excavating (P0554) located at 17040 Tecumseh St, Dundee, MI 48131. The purpose of the inspection was to determine the facility's compliance with the Federal Clean Air Act; Article II, Part 55, Air Pollution Control of Natural Resources and Environmental Protection Act, 1994 Public Act 451, as amended, MDEQ-AQD Air Pollution Rules, and Permits to Install No. 154-14.

I arrived at the location at 2:00 pm. The address is now occupied by Wilbur-Ellis Company. I met with Ryan Robinson, Branch Manager. I presented my credentials and stated the purpose for inspection. Mr. Robinson stated that Wilbur-Ellis purchased the property in late 2015. Wilbur-Ellis provides crop input materials to farmers in the local area. They do not store any anhydrous ammonia, the storage containers on site appear to be exempt from permitting per Rule 336.1284(2)(i).

I also spoke with Ten Mile Creek Excavating, and they confirm that the equipment was removed from the site back in 2015 and want the permit voided as they are based in Ohio and do not see the equipment returning to Michigan.

I will have PTI No. 154-14 voided as a result of this inspection.

Wilbur-Ellis appears to be in compliance with the Federal Clean Air Act; Article II, Part 55, Air Pollution Control of Natural Resources and Environmental Protection Act, 1994 Public Act 451, as amended, MDEQ-AQD Air Pollution Rules.
