

DEPARTMENT OF ENVIRONMENTAL QUALITY
AIR QUALITY DIVISION
ACTIVITY REPORT: On-site Inspection

P056165719

FACILITY: Core Energy - Gelow CPF		SRN / ID: P0561
LOCATION: NW 1/4 of SW 1/4 of NW 1/4 Section 12, T29N R2W, JOHANNESBURG		DISTRICT: Cadillac
CITY: JOHANNESBURG		COUNTY: OTSEGO
CONTACT: Brian Dorr , Chief Operating Officer		ACTIVITY DATE: 11/03/2022
STAFF: Rob Dickman	COMPLIANCE STATUS: Compliance	SOURCE CLASS: MINOR
SUBJECT: Follow up inspection of this minor source.		
RESOLVED COMPLAINTS:		

This source was last inspected in 2018 by Sharon LeBlanc. At that time, Sharon expressed concern that the dehy on site was not exempt as the dehy did not have a condenser and may require a permit. Bob Tipsword indicated that there was a condenser at the facility.

This appears to be an oil well site.

Following is an inventory of pertinent equipment at the facility:

- Three 400 bbl AST's with VRU and two loadouts. Tanks are unlabelled. Exempt under R 336.1284(2)(e) or (f)
- One small booster engine. Exempt under R 336.1285(2)(g)
- Glycol dehy with condenser. Exempt under R 336.1288(2)(b)(i)

All equipment on site appears exempt from air permitting and appeared in compliance with Air Pollution Control Rules. No further action is recommended.
