Violation Written Response**

**EGL, AQD
Warren District
27700 Donald Court
Warren Michigan
48092**

This letter is in regards to a violation we received on September 27, 2021. Our apologies for the delay of this response. We were not keeping or tracking the records for HAP emissions. This violation is something that nobody at our business was aware of needing tracked. The HAP calculations have been made to reflect back to the beginning of this year. Moving forward, these will be tracked monthly and put on a live spreadsheet via google docs. We have been in contact with Kaitlyn Leffert to ensure these documents contain the pertinent information needed for tracking HAP's. We have sent the updated spreadsheet to her. This sheet will be available upon request during any inspection in the future. Thank you for all the help to ensure we are within compliance.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jeremy Nicklow'.
