October 11th, 2016

Mike Kovalchick
Air Quality Division
301 East Louis Glick Highway
Jackson, MI 49201

Ref: P0738, Jackson County

Mike:

I attempted to contact you in regards to your letter dated Sept 19, 2016, but it appears you were out of the office. In your absence, I spoke with Scott Miller on Oct 3rd, 2016 in regards to this matter.

We purchased the Spring Arbor operation of March 1st of last year and have made no changes to equipment or operations. Unfortunately, I can't tell you when the equipment was installed by the previous owner and we were unaware that the previously owner didn't follow the appropriate regulations.

We will of course do everything to correct this issue in a timely manner. I have to admit, I am not familiar with the exact regulations, but will become familiar. As the normal pro-active people that we are, we already installed venting stacks for the cutter exhaust to remove any possible solids from the exhaust (see photo). I have downloaded the PTI form and will be contacting Jennifer Dickson, per Scott Miller's suggestion, to assist us in filling out the form.

We have every intention to correct this issue and I appreciate you bringing this to our attention.

Thanks,

Glen Hard
