10-2-2022

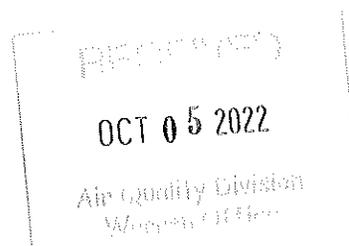

I am submitting this letter as a follow up to provide additional information for the violation that my business, Meg's Hauling, received on 8-17-2022. The business address is 67401 Brian Drive, Ray Township, MI 48096. On this date, Adam Bognar, noted that Meg's Hauling had violated PTI No 100-22/Special Condition 1.9 by not maintaining proper crushing material records. Since this date, Meg's Hauling has kept a log book including all materials processed which is kept at the crushing site.

Thank you for allowing me to further clarify this information.

Sincerely,

Lyle Fleischmann  
Meg's Hauling  
248-797-9529

I want to let you know that Meg's Hauling will not be able to perform the Air Quality Control Testing within the 60 day required timeframe because the Crushing machine has malfunctioned and will need to be taken to Indiana for repairs. Because of these unforeseen circumstances, I have contacted Impact Compliance Testing in Farmington Hills to cancel my test date and I will also keep you updated with the progress of this. Please let me know if you have any additional questions.

Thank you,

Lyle Fleischmann
