Dear Mr. Ahammod:

Stephens Environmental LLC. was requested by Titan Concrete LLC. to prepare a response your Letter of Violation dated August 29, 2022, regarding – 6497 East Ten Mile Road - Titan Concrete LLC. - SRN: P1297 - Fugitive Dust

Please see below for our written response as requested in your letter.

Since your visit on July 21, 2022, Titan Concrete LLC has instituted additional measures to eliminate fugitive dust emanating from the site, Measures include:

1. Site water sprinklers have been repositioned and additional sprinklers have been added to soak the concreted areas, roadways and stockpiles.
2. High pressure water hoses were also added to reach hard pavement and temporary unpaved areas.
3. A new "yard employee" position was added to fill a mixer truck and apply additional water to all areas of the site to aid in dust suppression.
4. By November 15, 2022 the site will be completely paved to further eliminate fugitive dust from the site.
5. Aggressive sweeping has been enacted to include daily sweeping during business hours.

By instituting the measures listed above, we believe we have addressed all concerns in your letter and trust the above is satisfactory.

It is Titan Concretes intent is to operate within the industry requirements and be good stewards of the environment.

Sincerely,

Mark Fletcher

Director of Environmental Compliance

Stephens Environmental LLC.
