Department of Environmental Quality

Air Quality Division

ATTN: Mr. Dale Turton

RE: Advanced Architectural Products, 3393 South M-40 Facility, Hamilton, MI

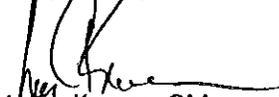

This is in response to the AQD Violation Notice dated 12/11/15, violation of Rule 201 of Act 451, Failure to Obtain a Permit to Install (PTI), for the above listed address.

The date of the violation is the 12/11/15 notification, sent after the 12/8/15 inspection by Mr. Turton. The pultrusion equipment was installed 4/1/15. Advanced Architectural Products (AAP) believed that it was compliant during this period, in that Rule 286 of the AQD Exemption Handbook lists Plastic Processing – Pultrusion Equipment as exempt from requiring a PTI.

The action being taken to address this violation is to prepare a PTI application for submission to the MDEQ / AQD. AAP has hired an Environmental Engineering firm, Derenzo Associates, Inc. to conduct all required analysis and complete the PTI application. This process is already underway. We anticipate the PTI application to be ready for submittal by 2/15/16.

AAP will strive to be fully compliant with all MDEQ / AQD Rules.

Respectfully,

Larry Krause, GM

Advanced Architectural Products

959 Industrial Dr.

Allegan, MI 49010
